◆ ELECTRO-MECHANICAL ASSEMBLY ◆ CNC MACHINING ◆ PRECISION METAL FABRICATION ◆

801 BEACON LAKE DRIVE * RALIEGH, NC 27610 * 919-212-6400

ACCU-FAB Continues the "LEAN" Focus

Accu-Fab continues to focus on "Lean Manufacturing" techniques as a daily means of doing business. Below is an example of just one of the many work areas which have been developed to support Value Streams that truly bring "Value" to our customers. This final assembly area is designed to assemble any one of twelve (12) customer base frames on demand when pulled by our customer's assembly line.

Shown on the right is another final assembly work area integrated into a Control Cabinet Value Stream. This Value Stream fulfills a mix of 10 cabinet P/Ns and 53 discrete Component P/Ns based on our customer's weekly production schedule. Replenishment of internally fabricated components are accomplished using a Kan Ban system, while misc. purchased components are replenished on demand by Accu-Fab's sub-tier supplier.

Quality Delivered By "FLOW" 

Newt Gingrich Honors ACCU-FAB's President

AMERICAN SOLUTIONS
for Winning the Future

Newt Gingrich, Merideth Norris, Gregg Page, Callista Gingrich

WASHINGTON, DC – Former Speaker of the House and General Chairman of American Solutions, Newt Gingrich, recently honored Mr. Gregory W. Page, President of Accu-Fab, Inc., as American Solutions' **2009 Entrepreneur of the Year from North Carolina**. Speaker Gingrich recognized Mr. Page at an American Solutions awards dinner on September 23, 2009 at the Capitol Hill Club in Washington, DC.

"While Washington politicians are busy pushing for job-killing health care and energy taxes, it's important that successful companies are recognized for doing what it takes to create jobs. America is nearing 10% unemployment, and creating new jobs is necessary for economic recovery. Unlike Washington, business leaders like Mr. Page realize that America does not work if Americans are not working. Accu-Fab is partnering with American Solutions and Newt Gingrich on advancing real solutions to help create more jobs and get our economy moving again."
